

Word Judge Test

Although Software Self-Lookups (SSL) are now used at almost every tournament, players have the right to a human word judge.

The test below can be taken by those who may provide this service at your tournaments. Make sure to discuss the results with anyone who will potentially serve in this role.

Use only the most recent edition of the *Official Club and Tournament Word List (OWL2)* and the *Long List (LL)* for words not found in the *OWL* and 10 or more letters long.
